DAVIS DEMOCRATIC CLUB

Paid for by the Davis Democratic Club FPPC 745-850 FEC #35 C00491050

If Everyone Lit Just One Little Candle (or wrote a postcard)

With less than a month to go before the November election, the Club managed to combine business with pleasure. The Annual DDC Fall BBQ followed a volunteer work party at the Davis Democratic Campaign HQ Office. Volunteers wrote postcards, often in personal terms, to voters in targeted Congressional Districts within California in support of the Democratic candidates discussing issues such as affordable health care.

Following this work party, the 25 campaign volunteers in attendance enjoyed a picnic lunch of grilled sausages, salads and fruit. However, most continued to busily write cards during their lunch in the hope of winning yet one more vote.

Guilty Beyond a Reasonable Doubt*

We're going to plow right through it. As soon as I hitch up these female assistants.

My committee is a lot of work. Female assistants don't want to do it.

I am convinced that Dr. Ford was the victim of a sexual assault. BUT.....

We see nothing new in this FBI report

I swear. I do not remember blacking out. I always fall asleep after I throw-up.

Cont'd. P.5

What just happened? By Elly Fairclough

George Lakoff, the author of *Don't Think of an Elephant*, can explain. An updated edition, *The All New Don't Think of an Elephant!*, of his 2004 classic guide has been released.

According to Lakoff, the conservative gospel is based on the "family" view of a dominant, disciplinarian father ... whereas the progressive model is based on a nurturing protective, responsible parent. Once a child reaches adulthood, the disciplined, self-reliant child cannot expect protection. In other words in American society, if you can't protect yourself ... that's your problem, whether it is health, the economy, or anything else. Better to spend on the military to protect our "sovereignty" than on social programs for deadbeats. In this case with a sexual predator, don't expect government or anyone else to come to your aid. Trump is the 2.0 version of what was rolled out in California to elect Arnold Schwarzenegger governor. Billions have been spent to promote this world view and to put an unfit individual in the White House and now on the Supreme Court.

Ed. Note: The CDP has endorsed Tony Thurmond for State Superintendent of Public Instruction. Among other issues is his opposition to privatizing public education with for profit schools.

Public schools saved my life. In my life, education has been the great equalizer that allowed me to overcome humble beginnings. I want the same opportunities for all of California's kids.

I'm running for **Superintendent of Public Instruction** because I believe we must ensure that every California child gets the education

they need to realize their potential. We can't be satisfied with the status quo. There was a time when education in California was among the best in our nation. Now, by most accounts, California ranks 46th in the nation in per-pupil spending. My plan offers innovative solutions, backed up by real strategies, to take California back to the top.

My plan for making California's public schools #1 in the country includes:

- **Keeping our students safe** from gun violence in schools
- **Prioritizing funding** to provide schools and educators with the resources they need
- **Leading the fight against Donald Trump and Betsy DeVos's** efforts to privatize our public education system
- **Transparency** in public education funding
- **Ensuring accountability** for charter schools
- **Creating a 21st Century curriculum** focused on STEM education that will prepare our students for jobs of the future
- **Supporting English learners** and bilingual education
- **Renewing our commitment to special education** for students of all abilities
- **Creating inclusive schools** that protect LGBTQ students from bullying
- **Empowering teachers** to instill critical thinking and creativity in students, not just teach to the test
- **Addressing the teacher shortage** by removing barriers to entry and improving affordability to enter the profession
- **Prioritizing early education and after-school programs** to close the achievement gap
- **Providing school-based physical and mental health care** for all students, regardless of income or immigration status
- **Making college and career pathways accessible** and affordable for every type of student
- **Keeping kids in school** and out of the criminal justice system

Caring for kids before they even enter the public school system.
